

CREATE

PHOTOGRAPHY

Our Story

The foundation of Create starts with **our story**;
We were both simultaneously travelling and hiking the Everest
base camp trail but doing it separately with no knowledge of
one another. It was only by chance did our paths finally cross
few weeks later when we met in Japan.
And well, the rest has just been history.

We believe that your wedding photography should reflect
the joy and love you feel on your wedding day. Every story is
unique and our passion comes from the honour and blessing
that it is, to be able to tell yours.

Keeping it simple for you

ENGAGEMENT SESSIONS

Chances are you haven't had too many opportunities with your loved one to pose for the camera together in a romantic setting... Are we right? Photography is not just about a lucky moment or good light. It's about preparation, skill and a relaxed relationship between subject and camera. And that goes for you both as well. Photography can be a little daunting, but at the end of the session you'll be better equipped and more relaxed for the big day. We specialise in capturing those passionate moments organically, and this works a lot better when you are relaxed and enjoying yourself!

Typically our engagements are a laid back, warm-up session that is a lot of fun, and really great way for us to all get to know each other. It also means there will be two less strangers at your wedding and it really can transform your images!

WHAT'S INCLUDED?

Approx 1-1.5 hour sessions
At a location of your choice (we can help too!)
You will receive 80-100 images
Every image is beautifully edited & retouched
Delivered via online archive for download within 1 week of shoot

One package fits all

WEDDING PHOTOGRAPHY

We prefer our wedding photography to document full stories, from start to finish, so once we're booked, you have us for the entire day! And that's not the best part, all our packages automatically have 2 photographers.

We arrive 2-3 hours before your ceremony and capture those unforgettable moments of you and your partner preparing for your special day. We then stick around until we get a well rounded perspective of the day, typically after the last scheduled event of the night! We work this way because it's important to us that your WHOLE day is covered, not just a portion.

It's an incredible feeling for us as well, to be able to transport you and your loved ones back in time, in an instant, from just a single image.

We enjoy capturing the events without unnecessarily influencing proceedings. it's important to us that you have an amazing time but also that you're day reflects YOU. We will ensure you feel at ease in front of the camera but can also offer guidance if you feel you need a push in the right direction.

WHAT'S INCLUDED?

- 2 professional photographers
- 10 hours photography
- No restrictions on how many images you receive
- Minimum of 800 images
- Individual retouching & editing to all images. (No batch edits)
